

Waste Disposal Service
by
Lift Global (PVT) Ltd.

“Your Waste is in good hands”

“Waste” is a global crisis which grows at an alarming rate.
Experts have forecasted we have less than
a decade left till **Day-Zero**.
Clock is ticking, We shall reap what we have sown.

Dilemma

Generating of waste is inevitable for us to lead our lives the way we live them today. Every industry is facing this gigantic challenge in eco-friendly disposal of such unavoidable wastes that geneates in their production processes to cater the demand.

Why bother to be eco-friendly?

Nature has made it clear that the economic growth without adherence to **‘Sustainability’** is no longer an option. “Wastes” we generate today without this conscience will be the cause of a largest threat our Children face tomorrow. It is the decision we make now that would decide whether they would at least be granted a planet to live, oxygen to breath & water to drink. Do not contribute to the Extinction of Earthlings including our own kin. Let’s be Responsible in what we do today since we are accountable for the existence of our future generations.

Thus what you do with your “waste” matters
That is why you need,
your “Wastes” to be “in good hands”.

Solution

We believe we have a sustainable solution for you. We utilize a Total Eco-friendly, Dry-distilled Gasification Incinerator mechanism, Made in Japan to dispose Industrial Wastes. This cutting-edge technology ensures,

Zero Pollution at an Affordable Price.

- Dioxin gases
- Ash residue
- CO₂, SO₂, CO
- Odor
- Smoke

- Fossil Fuel
- Electricity
- J-I-T Transport
- Auxiliary Fuel only

“Make the correct decision today and leave the planet earth clean.”

We can jointly endeavor for following SDGs,

Reverse your Carbon Footprints
with us as We turn your
“Wastes” into “Energy & Oxygen”.

Waste Disposal Process

We pick up/ you deliver

Weighing by bridge scales

We issue an acceptance notice.

Checking & scanning

Re weighing & storing into our warehouse.

Thermal destruction by Tecano Booster.

We issue an Eco friendly waste disposal certificate

Payment remitted to our Bank account

We send you the invoice.
(by e-mail)

Our Service Includes

Collection of Wastes

We arrange transport and pick wastes from your door-step at an agreed frequency. Clients can send us their wastes to our premises in which case they will be allocated a time slot prior to the arrival in order to ensure quick and swift unloading and releasing the vehicles without a delay. It was noted that a large unnecessary transportation costs are being incurred on the clients at waste disposal sites due to vehicle being held up in queues. We can help you avoid such costs with our JIT transportation and storage facility.

Certificate of Your Eco-Friendly Waste Disposal (with CEA Recognition)

Lift Global will issue you an e-Certificate with CEA recognition, for each disposal with accurate details of the weight and type of waste disposed, verifying the fact that our client has adhered to the eco-friendly measures within the legal framework of Waste Disposal. e-Certificate will be e-mailed to the client immediately upon disposal of the lot.

a large unnecessary transportation costs are being incurred on the clients at waste disposal sites due to vehicle being held up in queues. We can help you avoid such costs with our JIT transportation and storage facility.

All we need to know ;

1. Materials, Type, Items of your Wastes
2. Quantity per Day / Week / Month
3. Frequency you request wastes to be disposed (Daily/Weekly/Monthly)
4. Transportation method (Self-arranged / Service required)
5. Appearance at the time of collection. (such as, Bales/Sacks/Boxes/Bins/Barrels)

Conditions

1. Quantity and collection frequency of wastes we collect from you shall be mutually agreed at the commencement of the services. Any increase of the quantity we have to collect at each collection turn will be tolerated up to a maximum of 10% of the agreed total quantity for that turn.
2. We shall collect and accept agreed waste materials only. Any non-agreed waste material shall be refused to collect and shall be returned un-disposed if found mixed in.

Requests

1. We kindly request you to notify us at your earliest possible timing of any foreseeable decrease in waste quantities either temporarily or permanently.
2. Kindly notify us prior to at least 30 days in which case you intend to terminate our services.
